Statement for the Pishny property

The Pishny property has been enrolled in the Walk In Fishing Access program through Kansas Department of Wildlife & Parks to allow public access to fish on this property. On approximately September 1, 2023 KDWP will terminate the existing contract with the landowner and post signs stating that the property will no longer be enrolled in this program. The new landowner should be aware that the public has been accustomed to this property being open to public access and may wish to post additional "no trespassing" signs. If the new landowner wishes to re-enroll the property into the Walk In Fishing Access program then please contact:

Ely Sprenkle
